

Roy J. Carver Department of Biochemistry, Biophysics and Molecular Biology

SEMINAR SERIES SPRING 2019

January 24	Teresita Padilla-Benavides University of Massachusetts	Seminar Topic: “Role of Cu-binding Transcription Factors” (Host: Gustavo MacIntosh)
January 31	Breeanna Urbanowicz University of Georgia	Seminar Topic: “Hemicellulose Biosynthesis” (Host: Olga Zabolina)
February 7	Anant Menon Weill Cornell Medical College	Seminar Topic: “Flipping Lipids Across Membranes” (Host: Eric Underbakke)
February 14	Naazneen Sofeo Iowa State University	Seminar Topic: “Understanding the Effect of Acetylation on Acetyl CoA Synthetase from Plants” (Host: Dr. Marna Yandeau-Nelson)
February 21	Julius Lucks Northwestern University	Seminar Topic: “Uncovering How RNA Molecules Make Decisions” (Host: Dipali Sashital)
February 28	Blanton Tolbert Case Western Reserve University	Seminar Topic: “RNA and RNP Structures that Contribute to Viral Pathogenesis” (Host: Walter Moss)
March 7	Heather Hundley Indiana University	Seminar Topic: To Be Announced (Host: Dipali Sashital)
March 14	Kristen Lynch University of Pennsylvania	Seminar Topic: “Signal-Responsive RNA Processing in the Human Immune System: A Story of CELF Control” (Host: Walter Moss)
March 21	Spring Break	
March 28	Bertrand Garcia-Moreno Johns Hopkins University	Seminar Topic: “Ionizable Residues in Hydrophobic Environments in Proteins: Unusual, Unstable, Unpredictable, Essential” (Host: Julien Roche)
April 4	2019 Stupka Symposium	
April 11	Catherine Royer Rensselaer Polytechnic	Seminar Topic: To Be Announced (Host: Julien Roche)
April 18	Rajan Rakhi University of Oklahoma	Seminar Topic: To Be Announced (Host: Dipali Sashital)
April 25	Melissa Harrison University of Wisconsin	Seminar Topic: To Be Announced (Host: Dipali Sashital)

Every Thursday at 4:10 p.m. - Room 1414 MBB (unless otherwise noted)
