

Roy J. Carver Department of Biochemistry, Biophysics and Molecular Biology

SEMINAR SERIES SPRING 2019

February 7	Anant Menon Weill Cornell Medical College	Seminar Topic: <i>"Flipping Lipids Across Membranes"</i> (Host: Eric Underbakke)
February 14	Naazneen Sofoe Iowa State University	Seminar Topic: <i>"Understanding the Effect of Acetylation on Acetyl CoA Synthetase from Plants"</i> (Host: Marna Yandea-Nelson)
February 21	Julius Lucks Northwestern University	Seminar Topic: <i>"Towards an Era of RNA Design for Biology, Biomanufacturing and Health"</i> (Host: Dipali Sashital)
February 28	Blanton Tolbert Case Western Reserve University	Seminar Topic: <i>"RNA and RNP Structures that Contribute to Viral Pathogenesis"</i> (Host: Walter Moss)
March 7	Heather Hundley Indiana University	Seminar Topic: <i>"Rewiring the Genome: Molecular Mechanisms that Regulate RNA Editing"</i> (Host: Dipali Sashital)
March 14	Kristen Lynch University of Pennsylvania	Seminar Topic: <i>"Signal-Responsive RNA Processing in the Human Immune System: A Story of CELF Control"</i> (Host: Walter Moss)
March 21	Spring Break	
March 28	Bertrand Garcia-Moreno Johns Hopkins University	Seminar Topic: <i>"Ionizable Residues in Hydrophobic Environments in Proteins: Unusual, Unstable, Unpredictable, Essential"</i> (Host: Julien Roche)
April 4	2019 Stupka Symposium	
April 11	Catherine Royer Rensselaer Polytechnic	Seminar Topic: To Be Announced (Host: Julien Roche)
April 18	Rakhi Rajan University of Oklahoma	Seminar Topic: To Be Announced (Host: Dipali Sashital)
April 25	Melissa Harrison University of Wisconsin	Seminar Topic: To Be Announced (Host: Dipali Sashital)

Every Thursday at 4:10 p.m. - Room 1414 MBB (unless otherwise noted)
